

# BLACK & WHITE DOUBLE SIDED SPACER TAPE

Our range of high performance spacer tapes have been specifically developed for use in membrane switch applications and associated products. The spacer tapes which utilise high performance adhesive, provide a good level of initial tack and a high level of adhesive strength.

Developed for use in the harshest of conditions, our spacer tapes demonstrate outstanding resistance to hostile environments. They are ideally suited for die-cutting

Our spacers are available in both double sided and single sided construction, in a wide variety of polyester carrier and adhesive thicknesses.

The MS series spacer tapes provide a high quality product at a price positioned to help our customers compete in this competitive market.

Sheet sizes of 915 x 610mm (S1) & 1000 x 700mm (S2) are available. Standard roll size 100M x 960mm
